APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all prior rights on the stream system of which this source is a tributary, and in conjunction with permit No. 3482, certain subdivisions of land being duplicated in both filings. The amount of water herein granted is placed at 1.6 cubic feet per second for the land described, namely 160 acres, so that such amount of water may be diverted and used in the event that there is a shortage in Double Springs Creek as described in said permit No. 3482. The applicant will be required at the time of filing proof of beneficial use of water to definitely segregate the areas of land which obtain water for irrigation from Double Springs Creek, and that which is irrigated under this permit by the waters of Pete's Creek. A standard headgate and weir must be installed. The use of water herein granted is subject to regulation by the State at any time. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed

One & 6/10 cubic feet per second. (1.6)

- Actual construction work shall begin on or before June 14, 1916.
Proof of commencement of work shall be filed before July 14, 1916.
Work must be prosecuted with reasonable diligence and be completed on or before December 14, 1917.
Application of water to beneficial use shall be made on or before September 14, 1920. Proof of the application of water to beneficial use must be filed with State Engineer on or before October 14, 1920.
